

Marquardt hosted the National Conference AVE – “Asta Vreau Eu!” (“I want this!”)

Educational program for safety at the workplace and early professional counselling of pupils in the primary education cycle

The Marquardt Romania Company hosted on the 01.03.2018 the Implementation Conference for Project AVE – “Asta Vreau Eu”.

The conference was organized by Marquardt Romania in cooperation with the Labor Inspection, the Territorial School Inspectorate Sibiu and was attended by representatives of Territorial Labor Inspectorates from 10 counties and several important companies that are operating in Romania.

3 months after the successful conclusion of the pilot project in Sibiu county, the conference marked the launch and extension of Project AVE at a national level. This project was initi-

ated in Sibiu as a result of a very good cooperation between Marquardt Romania, the Territorial Labor Inspectorate of Sibiu County, the School Inspectorate of Sibiu County and the School of Slimnic.

The pilot project that run in 2017, promoted through its actions values for Occupational Health and Safety, offering pupils from the school an education-

al program aimed at awareness of hazard avoidance in the work environment as well as learning programs at workplaces in companies and institutions. During their familiarization with the requirements in the Occupational Health and Safety domain the pupils could experience directly the most sought after professions and trades, in order to make an informed choice on their career path after graduation of their studies. In this context the Marquardt Company initiated and ran programs for counselling and professional orientation of pupils of the primary education cycle.

The success achieved in Sibiu Coun-

ty determined the Labor Inspection of Romania to extend this project at national level.

“The exceptional success at county level of Project AVE encourages us, together with the Labor Inspection, to extend this initiative at national level. At this moment we plan the framework for a national educational program regarding Occupational Safety and Health and professional orientation for pupils”, stated the organizers of the project

For the definition of the steps to be followed, delegates of Territorial Labor Inspectorates from Bucharest and the counties of Alba, Arad, Bihor, Braşov, Dolj, Galaţi, Neamţ, Tulcea and representatives of companies from these counties participated at the conference.

They were joined by representatives of School Inspectorate of Sibiu County, the Inspectorate for Emergency Situations Sibiu and 3M Company, delegates of other local authorities,

of the Lucian Blaga University Sibiu and the Academy of Scientists of Romania. The attendees debated the project phases, elaborated implementation methodologies, adjustments of the legal framework and promotion strategies for the project.
